

helping helps you

agreement

I am committed to keeping all of the information from the group meetings and accountability calls confidential. What says here stays here.

I will be an active participant in the group. I understand that the integrity and success of the group is predicated on an abundance mindset – our motto is “Helping Helps You.”

I will show genuine concern and sincerity, even if I have to fake it until I get to know the people in my group.

I will enter the meeting schedule and my action steps into my calendar.

I will be on time for meetings and will arrive prepared, with my Action Plans completed in advance.

I will give constructive feedback to other members of my group as well as to the *do IT groups* organization.

I will not attempt to dominate the discussion or go over my allotted time.

I will remember that this meeting is for my success and the success of my other group members. I will stay focused on my desired outcomes as well as theirs.

I will be present in our meetings by actively listening to others and taking notes as well as avoid cell phone interruptions.

I will have an open mind and be willing to change what I am doing currently.
